

Pond Site Plan Requirements for the Whitley County Engineer's Review

To apply for a pond permit, a site plan and specifications for installation must be provided. It will be reviewed by the County Engineer to verify the hydraulic capacity and compliance with Ordinance No.2002-13 Construction or Enlargement of Ponds.

The site plan should include:

1. The name and phone number of the landowner and the contractor.
2. Estimated start and estimated completion date.
3. Acreage of pond.
4. A scaled aerial 2008 (or more recent) photograph or drawing with:
 - A. The location and measured distances from the waters edge and all fill areas to:
 1. the right of way of any public road.
 2. the adjoining property owner
 3. the right of way of any county drain or ditch
 4. any well, water source or septic system
 - B. The location and Measured distance from the outlet to:
 1. the right of way of any public road.
 2. the adjoining property owner
 3. the right of way of any county drain or ditch
 4. any well, water source or septic system
 - C. Inlet and outlet pipe diameters, locations, elevations and plans showing if pond is to provide detention, outlet onto the surface, connect to existing private or county regulated tile, etc. (Show all known private tile locations.)
 - D. A bench mark; i.e. a standpipe or corner post.
 - E. Erosion Control measures
e.g.: riprap or other bank stabilization, seeding etc

If your site plan is approved by the Engineer's Office, you may obtain a Pond Permit in the Planning and Building Department. It is your responsibility to obtain any state or federal permits applicable to your project.

FILL IN WORKSHEET FOR POND SITE PLAN DATA:

1. Name and phone number of the landowner:

Name and phone number of the contractor:

2. Estimated start and estimated completion date: _____

3. Pond acreage amount: _____

4. Pond Site Plan Details

A. Measured distance from the water's edge to:

The right of way of any public road: _____

The adjoining property owner: _____

The right of way of any county drain or ditch: _____

Any well, water source or septic system _____

Measured distance from fill (mounding) to:

The right of way of any public road: _____

The right of way of any county drain or ditch: _____

B. Measured distance from outlet to:

The right of way of any public road: _____

The adjoining property owner: _____

The right of way of any county drain or ditch: _____

Any well, water source or septic system _____

C. Inlet pipe diameter(s) and location: _____

Outlet pipe diameter and location _____

(Attach additional sheets showing outlet details)

D. Bench mark description and elevation _____

E. Erosion Control Measures not shown on plan sheet _____
